

Lab 14: Web Design Application – AI-Assisted HTML/CSS/JS Generation

Name: B.Sarayu

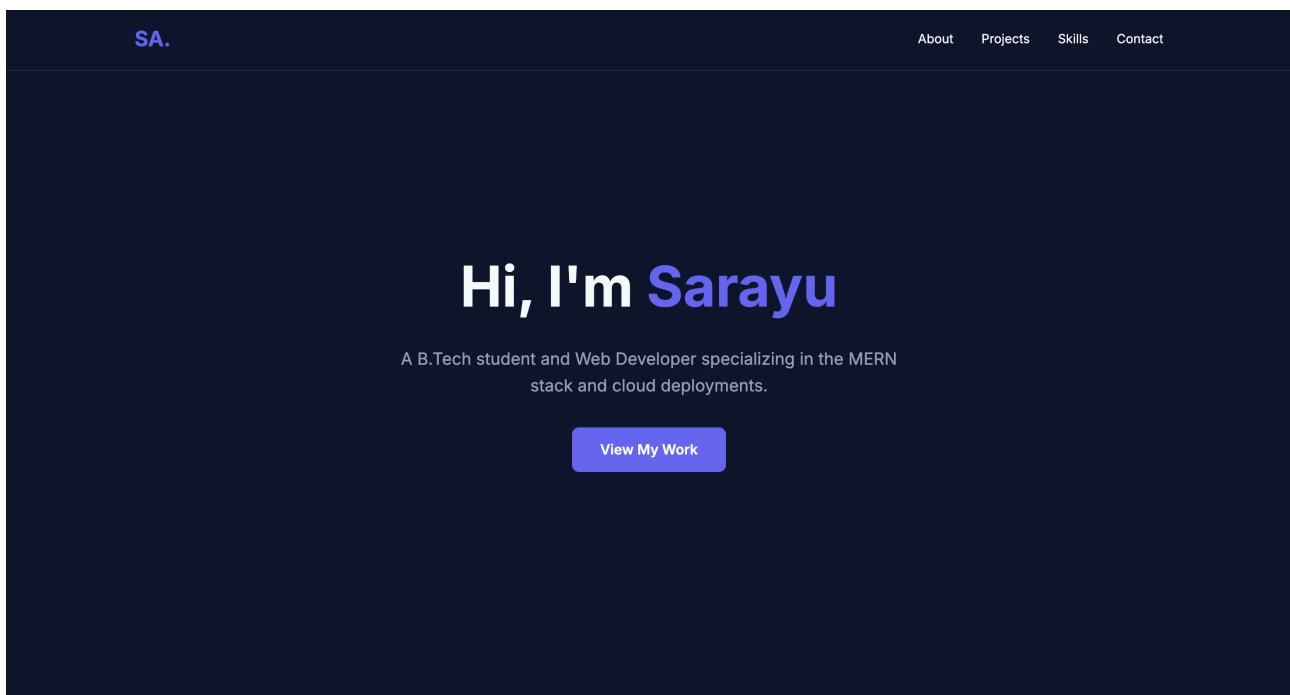

Hall Ticket No: 2303A51842

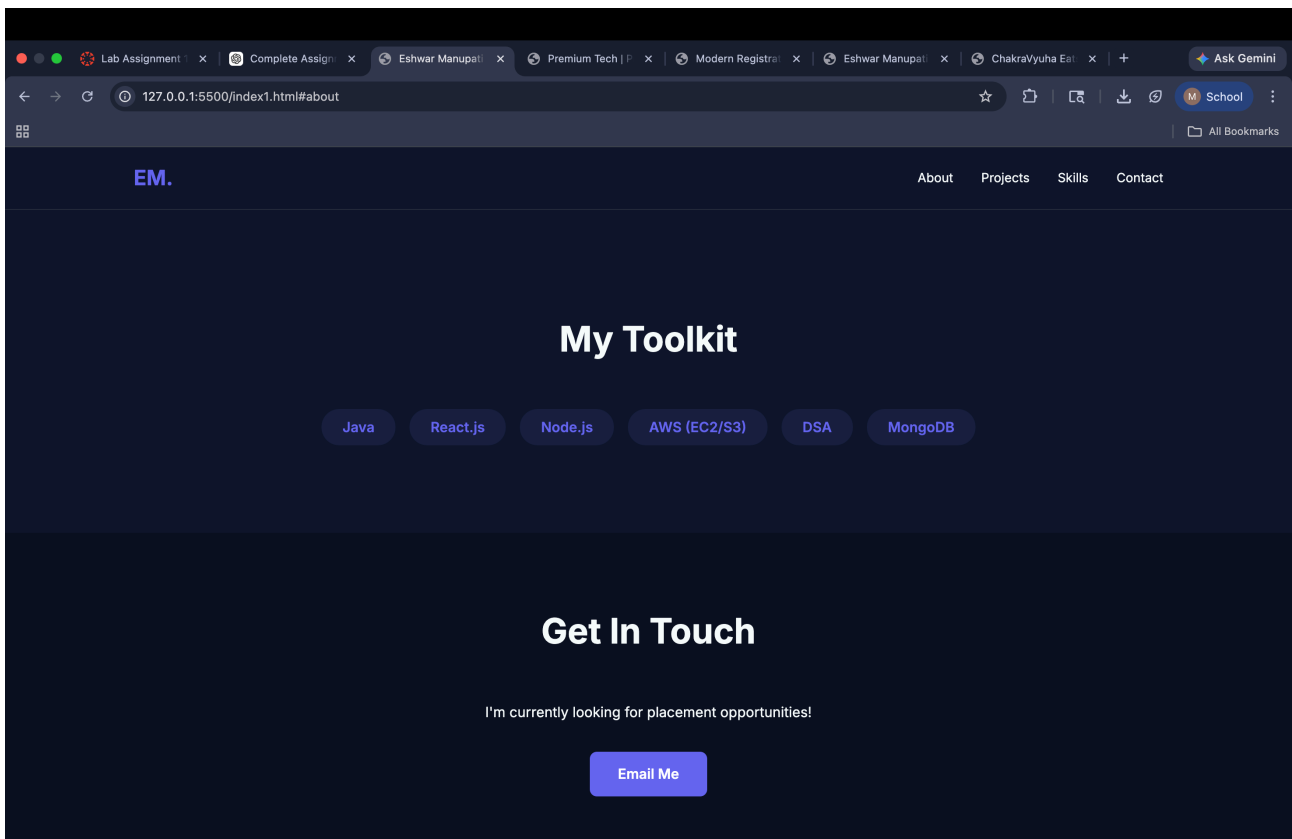

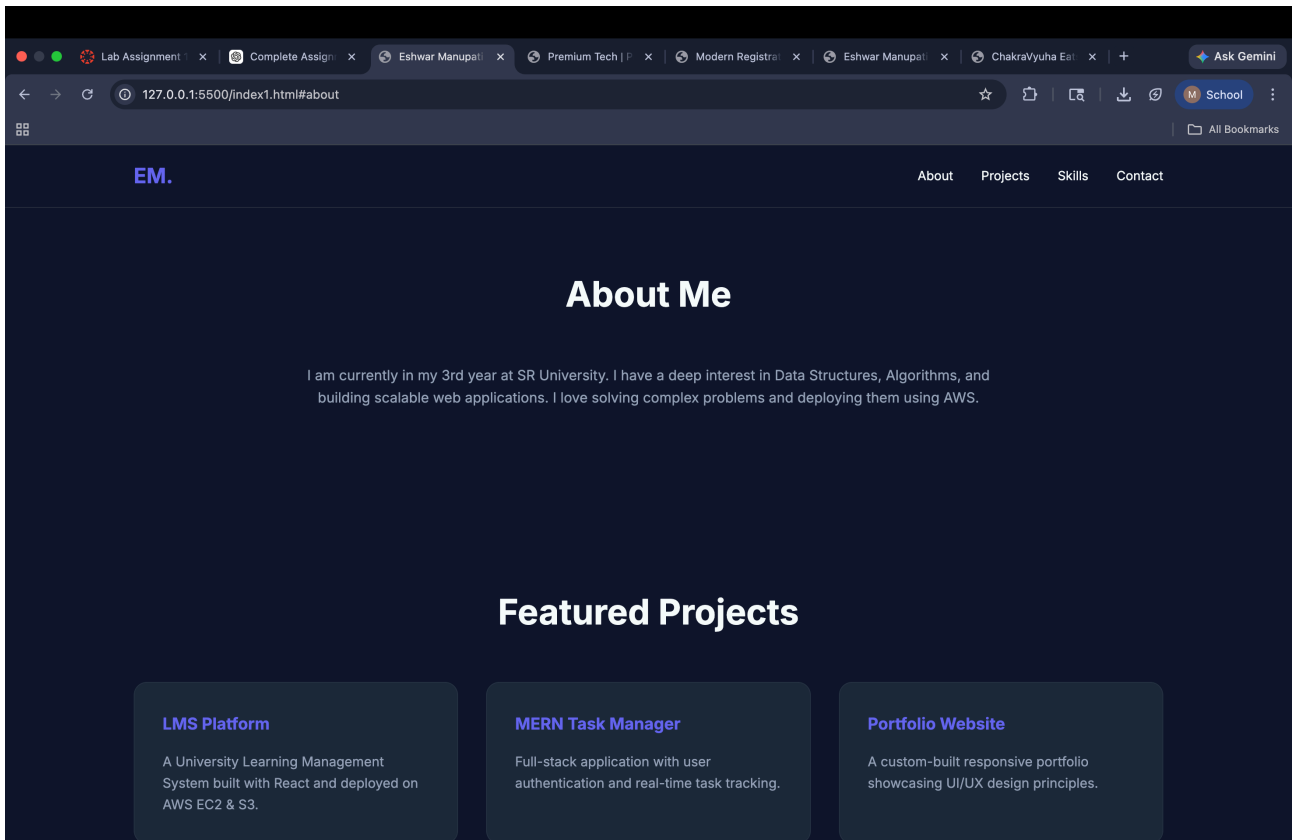

Task 1 – Portfolio Website Design

AI Prompt Used:

Act as a Senior Frontend Developer. Create a modern, single-page responsive portfolio using **HTML and Vanilla CSS**. Include a glassmorphism sticky navbar, a hero section with a clear CTA, a project grid with hover animations, and a skills section using badges. Use a **Dark Theme** (Slate and Indigo) and the 'Inter' font. Ensure it is fully mobile-responsive.

The Page:

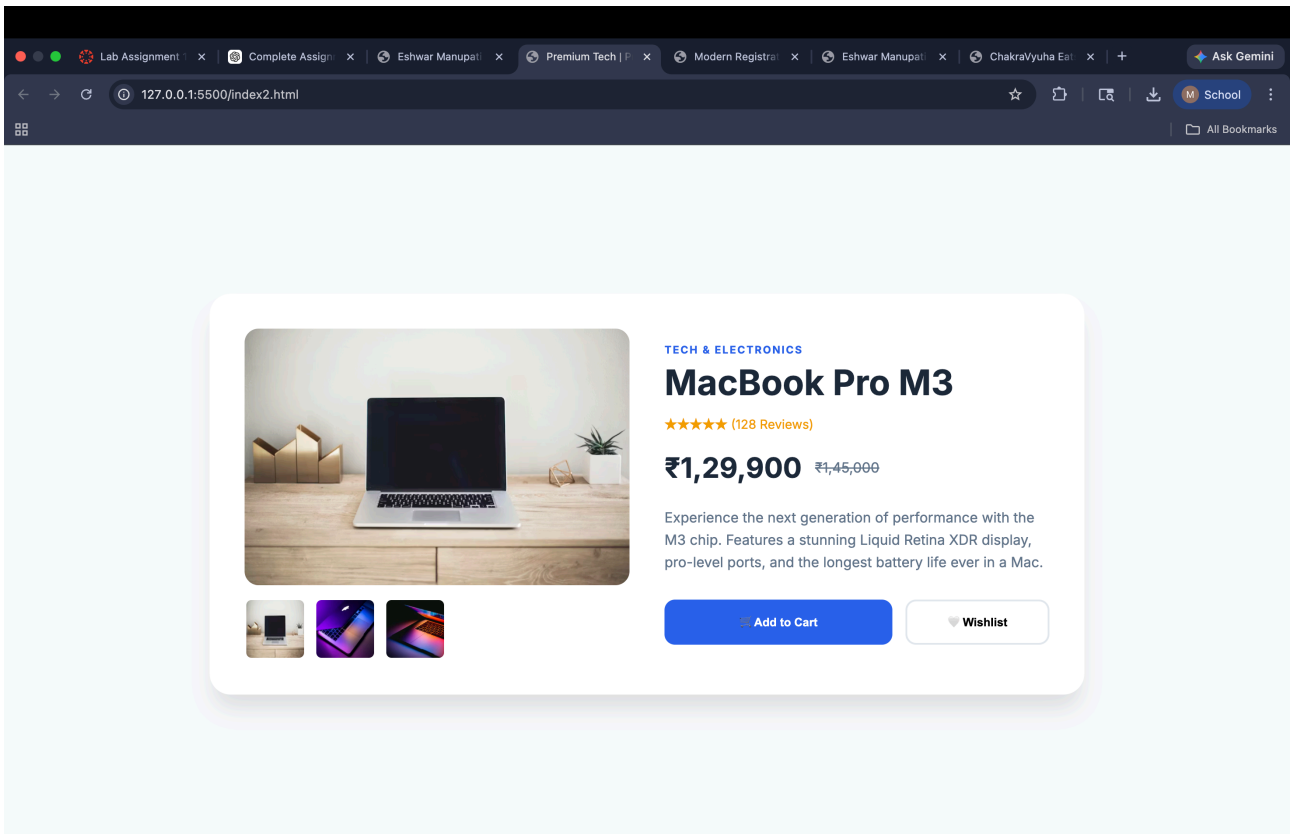

2 – Online Store Product Page:

AI Prompt Used:

Generate a professional e-commerce product page using HTML and CSS. Use a **two-column grid layout** for desktop (image gallery on left, details on right) that stacks on mobile. Include a main image with thumbnails, a star rating system, price comparison (original vs. discount), and a clear 'Add to Cart' button. Focus on a clean, high-end tech aesthetic with plenty of whitespace.

Task 3 – Event Registration Form

AI Prompt Used:

Design a modern, center-aligned registration form. Use a **Glassmorphism** card effect over a soft gradient background. Each input should have a focus state animation and a clear label. Include a dropdown for 'Interest Category' and a 'Submit' button with a subtle lift-on-hover effect. Add a small JavaScript snippet for 10-digit phone number validation.

Task 4 – Resume Website

AI Prompt Used:

Create a responsive, two-column resume template. The **left sidebar** should contain contact info and skills (using tags), and the **right main section** should feature a professional summary and a timeline-style experience section. Use high-contrast typography for readability and ensure the layout is optimized for PDF printing.

SKILLS

Java

Data Structures

React.js

Node.js

AWS (EC2/S3)

MongoDB

System Design

EDUCATION

🎓 **Tech in CSE**

SR University, 2023 - 2027

Sarayu Burugu

Full Stack Developer & DSA Enthusiast

Professional Summary

Dedicated 3rd-year B.Tech student with a strong foundation in Java, Data Structures, and Algorithms. Experienced in building and deploying full-stack web applications using the MERN stack and AWS cloud infrastructure.

Experience & Projects

● **LMS Deployment (AWS)**

Personal Project | Sept 2025

Built and deployed a University Learning Management System using React and AWS. Managed IAM roles and optimized S3 bucket configurations for secure file storage.

● **MERN Task Manager**

Full Stack Dev | 2025

Developed a task tracking application with user authentication and real-time database updates using MongoDB, Express, React, and Node.js.

● **Hackathon Participant**

Team ChakraVyuha | Nov 2025

Collaborated in a team environment to solve real-world problems through rapid prototyping and agile development.

Task 5 – Restaurant Menu Page

AI Prompt Used:

Build a mobile-first digital restaurant menu. Include a **sticky horizontal scroll category bar** at the top. Each menu item should be a card showing an image, a 'Veg/Non-Veg' indicator icon, description, and price. Use a 'warm' color palette (Orange/White) to trigger appetite appeal. Ensure the cards transition from horizontal (desktop) to vertical (mobile)
